

## Certified Disaster Response & Recovery Manager

Business Continuity and Disaster Response / Recovery is the process of preparing processes, policies, and procedures that follow in the event of a significant and unplanned operational disruption. The *Certified Disaster Response and Recovery Manager* training course prepares students for industry certification in Business Continuity planning and Disaster Recovery missions.

As businesses face a wide range of daily risks – including cyber-attacks, human error, technical failures, and natural disasters – it's vital they create practical plans to sustain their security posture, financial health, and industry / brand reputation to maintain long-term success. Students will cover topics such as: BCP Design and Development Strategies, Selection of Risk Management Frameworks, Qualitative and Quantitative Analysis Strategies, Creating Asset Inventories and Resource Profiles, Recovery Site Management and Workflows, Reviewing Cloud Computing Service Agreements, Cloud Data Security Strategies, and the Impact of Legal Requirements on Cloud Storage Solutions.

Duration: 5 Days

CPE Credits: 40

Course Fee: \$3,500

### Learning Objectives

- |   |  |
|---|--|
| 01) Introduction to Disaster Response Management      | 09) Introduction to Cloud Computing Concepts         |
| 02) Overview: The Business Impact Analysis            | 10) Cloud Data Storage and Security                  |
| 03) Selection of Risk Management Frameworks           | 11) Cloud Security Risks and Threat Vectors          |
| 04) Qualitative and Quantitative Analysis Strategies  | 12) Cloud Security Responsibility and Administration |
| 05) Implementing the 5 Levels of BCP Test Progression | 13) Distributed Cloud Networks: Legal Considerations |
| 06) Creating an Emergency Operations Plan             | 14) Regulation and Compliance in Cloud Computing     |
| 07) Recovery Site Management and Workflows            | 15) Understanding the Structure of Legal Contracts   |
| 08) Preparing for Epidemics and Pandemics             | 16) Reviewing Contracts and Service Level Agreements |
